X Ticare Implantology Congress

CONGRESS PROGRAMME

Friday 16th February

	Auditorium	Luxemburgo Room	Berlin Room	Paris Room
09:00-11:00 h	Main programme	Science programme		Prosthetic programme
11:00-11:30 h	Coffee break	Coffee break	Coffee break	Coffee break
11:30-13:45 h	Main programme	Science programme		Prosthetic programme
13:45-14:45 h	Lunch break (free)	Lunch break (free)	Lunch break (free)	Lunch break (free)
14:45-15:30 h	Debate			
15:30-17:45 h	Main programme	Science programme	Alveolar ridge preservation	Prosthetic programme
17:45-18:15 h	Coffee break	Coffee break	Coffee break	Coffee break
18:15-20:15 h	Main programme		Alveolar ridge preservation	Dental Hygienists programme

Saturday 17th February

	Auditorium	Luxemburgo Room	Berlin Room	Paris Room
09:30-11:30 h	Main programme		Dental Marketing Course	Dental Hygienists programme
11:30-12:00 h	Coffee break	Coffee break	Coffee break	Coffee break
12:00-14:00 h	Main programme		Dental Marketing Course	Dental Hygienists programme
14:00 h	Closing	Closing	Closing	Closing

Main Programme

MAIN
PROGRAMME

Friday 16th February. AUDITORIUM

8:00 h-18:00 h
8:55-9:00 h

Registration and documentation hand-out
Congress introduction. Mr. Ángel Mozo

9:00-09:30 h

Chairpersons: Dr. Pablo Domínguez Cardoso and Dr. María Jesús Suárez García

Five keys to successful implant-supported prosthesis

Dr. Ana Orozco Varo

PhD in Dentistry, University of Seville. Expert in implant-supported prosthesis, University of Seville. Associate Professor of Dental Prosthesis, University of Seville. Professor of the Specialization in implant-supported prosthesis, University of Seville. Professor of the Expert Programme on Basic and Advanced Implantology, University of Valencia.

09:30-10:05 h

Prognosis and decision making. Preserve or not the tooth from the restorative point of view

Dr. Jon Gurrea Arroyo

University degree in Dentistry, UAX Univeristy (Universidad Alfonso X El Sabio) Madrid. Master degree in Periodontics, New York, USA. Professor of the Master Diploma in Oral Implantology, UAX, Madrid. Professor of the Master Diploma in Oral Implantology, Universidad Europea, Madrid.

10:05-10:45 h

New solutions for fixed implant-supported restorations

Dr. Javier Ventura de la Torre

University degree in Dentistry, University of Seville. PhD in Dentistry, University of Seville. Specialist in implant-supported prosthesis, Complutense University of Madrid. Diploma in Dental Aesthetics, International University of Catalonia. Professor of the Specialization in implant and prosthesis, University of Seville.

10:45-11:00 h

Discussion

11:00-11:30 h

Coffee break

11:30-12:10 h

Chairpersons: Dr. Eugenio Velasco and Dr. Nacho Rodríguez

Current clinical research with Ticare Mozo-Grau implants

Dr. Marco Esposito (Italy)

PhD in Biomaterials and Associate Professor, Göteborg University, Sweden. Editor of the Cochrane Oral Health Group. Chief Editor of the European Journal of Oral Implantology.

12:10-12:50 h

Microleakage O and GAP O, the keys for functional and aesthetic success

Dr. Carlos Larrucea Verdugo (Chile)

Oral surgeon, Specialist in Oral Rehabilitation, University of Chile. Magister in Sciences, Speciality in Physiology, University of Concepcion (Chile). Lecturer professor, University of Talca (Chile). Director of Oral Rehabilitation Postgraduate degree with mention in Implantology, University of Talca (Chile).

12:50-13:30 h

Virtual Implantologic Patient Protocol (VIP protocol)

Dr. Fernando Rojas Vizcaya

Oral surgeon. Complutense University of Madrid, Specialist in Prosthodontics. University of Northern Carolina (USA). Founder and Director of Mediterranean Institute of Prosthodontics.

13:30-13:45 h

Discussion

13:45-14:45 h

Lunch break (free)

Main Programme

MAIN
PROGRAMME

Friday 16th February. AUDITORIUM

14:45-15:30 h	<p>Chairpersons: Dr. Fernando Gutiérrez de Guzmán</p> <p>DISCUSSION. Marketing and Dentistry</p> <p>Dr. Raúl Pascual Campanario, Dr. Alberto Manzano, Mr. David Cuadrado (Viventia).</p>
15:30-16:10 h	<p>Chairpersons: Dr. Arturo Sánchez Pérez and Dr. Assumpta Carrasquer</p> <p>The differential diagnosis of peri-implantitis</p> <p>Dr. Andrea Mombelli (Switzerland)</p> <p>University degree in Oral Medicine, University of Bern. PhD in Dentistry, Professor and Director, Division of Periodontology and Oral Pathophysiology. Director of the post-graduate programme in Periodontology at the University of Geneva, Switzerland. Titular Professor at the University of Bern. Member of the International Team for Oral Implantology (ITI) and the European Academy of Periodontology (EAP). Member of several editorial review boards and committees such as the Journal of Clinical Periodontology and COIR.</p>
16:10-16:50 h	<p>Biomolecules and biofactors in dental implants. Prevention of peri-implantitis and improvement of biologic seal</p> <p>Dr. Conrado Aparicio (USA)</p> <p>PhD in Biomechanic Engineering Universitat Politècnica de Catalunya. Deputy Director of the Minnesota Dental Research Center for Biomaterials and Biomechanics (MDRCBB). Titular professor in the Odontology Faculty at the University of Minnesota.</p>
16:50-17:30 h	<p>Soft Tissue response to immediate implants</p> <p>Dr. Juan Blanco Carrión</p> <p>University degree in Medicine and Surgery, University of Santiago de Compostela. Specialist in Stomatology. Master's degree in Periodontics, Complutense University of Madrid. PhD in Dentistry, Complutense University of Madrid. Director of the Master in Periodontics and Director of "Expert in Periodontics" of the University Santiago de Compostela, Spain. Former President of the European Federation of Periodontology EFP.</p>
17:30-17:45 h	<p>Discussion</p>
17:45-18:15 h	<p>Coffee break</p>
18:15-18:55 h	<p>Chairpersons: Dr. Antonio Bujaldón Daza and Dr. Luis Antonio Aguirre Zorzano</p> <p>Key factors in the preservation of peri-implant soft tissues</p> <p>Dr. Mariano Sanz Alonso</p> <p>University degree in Medicine and Surgery, Complutense University of Madrid. Specialist in Stomatology, Complutense University of Madrid. Specialist in Periodontology, University of California, Los Angeles (UCLA), USA. PhD in Medicine, Complutense University of Madrid. Honorary Doctorate at Gothenburg (Sweden), Coimbra (Portugal) and San Sebastián (Chile) Universities. Professor of Periodontology, Complutense University of Madrid. Co-Director of the Mater in Periodontology, Complutense University of Madrid.</p>
18:55-19:30 h	<p>Can we, need we or must we treat peri-implantitis?</p> <p>Dr. Juan Manuel Vadillo Martínez</p> <p>PhD in Dentistry, Complutense University of Madrid. Director of the Master in Implant surgery, Prosthesis and Perimplantology at University Alfonso X El Sabio, Madrid. Clinical Coordinator of the Stomatology Service at San Rafael Hospital. Lecturer at the Periodontology and Implants Master, University of Seville.</p>
19:30-20:00 h	<p>How to prevent peri-implantitis. Five keys to long-term success</p> <p>Dr. Alberto Monje</p> <p>University degree in Dentistry, European University of Madrid. Master's degree in Periodontology and Oral Medicine, University of Michigan, USA. Researcher at the Oral Surgery and Implantology Department of the University of Bern, Switzerland.</p>
20:00-20:15 h 20:15 h	<p>Discussion</p> <p>End of the programme of the day</p>

Main Programme

MAIN
PROGRAMME

Saturday 17th February. AUDITORIUM

Chairpersons: Dr. Eduard Valmaseda and Dr. Abel García García

9:30-10:05 h

Aesthetic zone management with implants

Dr. Alberto Salgado Velázquez

University degree in Dentistry, Complutense University of Madrid. Master's degree in Surgery. Complutense University of Madrid. Master's degree in dental implants, Complutense University of Madrid. Lecturer at the Master in dental implants, Miguel Hernández University. Diploma of Advanced Studies, Complutense University of Madrid.

10:05-10:40 h

A04 A06. Rehabilitation using Ticare Implants

Dr. Nuno Cintra (Portugal)

PhD in Dentistry, Instituto Superior de Ciências de la Salud, Lisbon, Portugal. Master's degree in Oral and Maxillofacial Surgery, Eastman Dental Institute, London, UK. Specialist in Oral Surgery. Fellowship of the European Board Certificate in Oral Surgery Surgeon at the Malo Clinic in Lisbon, Portugal. Took part on the development of All-on-four technique and immediate implants. Director of the Plus Auditorium training center in Azores Islands, Portugal. CEO and Clinical Director of Medicabulum Clinic, Portugal.

10:40-11:15 h

Therapeutic alternatives for rehabilitation of the posterior sector of the upper maxilla

Dr. Rui Figueiredo

PhD in Dentistry, University of Barcelona. Diploma of Advanced Studies, University of Barcelona. Associate Professor of Oral Surgery, University of Barcelona. Lecturer at the Master in Oral Surgery and Orofacial Implantology, University of Barcelona. Member of the IDIBELL research group.

11:15-11:30 h

Discussion

11:30-12:00 h

Coffee break

Chairpersons: Dr. Rafael Martín Granizo and Dr. José Luis López Cedrún

12:00-12:40 h

Functional rehabilitation with implants in oncologic patients

Dr. Carlos Navarro Vila

Full professor of Maxillofacial Surgery, Faculty of Medicine, Complutense University of Madrid. Head of the Oral and Maxillofacial Surgery Service, Gregorio Marañón University Hospital, Madrid. Member of the Royal National Academy of Medicine.

12:40-13:10 h

Atrophies of the upper maxilla thickness. What can the clinic and the laboratory provide for a correct choice

Dr. Florencio Monje Gil

Head of the Oral and Maxillofacial Surgery Service Infanta Cristina University Hospital, Badajoz. Assistant Professor of the Faculty of Medicine, Badajoz. Director of CICOM Centre, Badajoz. President of FEDICOM Foundation.

13:10-13:50 h

Digital technique for an accurate treatment

Dr. Wang Huiming (China)

PhD in Medicine. West China University of Medical Science, Sichuan University. Member of the International College of Dentists (FICD). Editor of "Oral Medicine", "China Oral Implantology" and "China Oral and Maxillofacial Surgery". Chief of Stomatology, University of Zhejiang. Board of Professional Committee of Neck and Head Tumors in Chinese Anticancer Association. President of the Zhejiang Stomatological Association. Director of the Chinese Stomatological Association. Vice president of the Chinese Society of Oral and Maxillofacial Surgery

13:50-14:00 h

Discussion

14:00 h

Closing ceremony

Mr. Fernando Mozo, Mozo Grau S.A., CEO

Science and Research Programme

SCIENCE AND RESEARCH PROGRAMME

Friday 16th February. "Luxemburgo" Room. 1st Floor.

Chairperson: Dr. Regina Mestre Aspa

09:30 h	Introduction
09:45-10:00 h	Review and update on immediate implants Dr. Belén Pedreño Antolíños
10:00-10:15 h	Consensus on Peri-implantitis Quintanilla Consensus Group. Dr. Belén Pedreño Antolíños
10:15-10:30 h	Consensus on team work for prosthetic treatments with implants Quintanilla Consensus Group. Dr. Manuel Bernal Gómez
10:30-10:45 h	Consensus on short implants Quintanilla Consensus Group. Dr. Manuel Bernal Gómez
10:45-11:00 h	Bacterial microleakage at implant-abutment interface Dr. Carlos Larrucea and Dr. Ricardo Valdés Sánchez. Univeristy of Talca, Chile.
11:00-11:30 h	Coffee break
11:30-11:45 h	Diagnostic accuracy of ISQ values for monitoring progressive bone loss. An experimental study in Beagle dogs Dr. Alberto Monje
11:45-12:00 h	In-vitro comparative study of adjustment and microleakage in the implant-abutment interface with internal and external connection Dr. Jorge Vélez Barros. Complutense University of Madrid.
12:00-12:15 h	Interproximal crestal bone level after placing a prosthesis designed by CAD-CAM and placed directly on bone-level implants or with an intermediate abutment Dr. Lourdes Nóvoa. University of Santiago de Compostela.
12:15-12:30 h	Clinical study of Ticare Quattro implants Dr. Alba Sánchez Torres. University of Barcelona.
12:30-12:45 h	3 in-vitro experimental models about bone bed heating during drilling process: optimization of drills' material (A and B). Optimization of the drill design Dr. Juan Carlos Bernabeu. University of Valencia
12:45-13:00 h	Study of the effect of dental implant macrodesigns on primary stability and bone-implant contact. Histomorphometric study on bicortically-anchored implants in rabbits tibia Dr. David Soto Peñaloza. University of Valencia.
13:00-13:15 h	Study of stress on cast, sintered and milled implant-supported prosthesis Dr. Gema Arroyo Cruz. University of Sevilla

13:15-13:30 h	Effect of implant surface on patients with periodontal disease history Dr. Benjamín Serrano Torrecilla. Complutense University of Madrid.
13:30-13:45 h	Consensus on the technical status and clinical recommendations for implant periapical lesion Dr. Juan Antonio Blaya Tárraga. University of Valencia.
13:45-14:45 h	Lunch
14:45-15:30 h	Main Auditorium. DEBATE on Marketing and Dentistry
15:30-15:45 h	Consensus statements and clinical recommendations on treatment indications, surgical proceedings, prosthetic protocols and complications after a standard All-on-four treatment Dr. Regino Zaragoza. University of Valencia
15:45-16:00 h	Removal of remaining cement used on an implant-supported prosthesis. In-vitro study Dr. Sara Amghar Maach. University of Barcelona
16:00-16:15 h	Effect of the application of chlorhexidine on healing abutments to prevent plaque accumulation. A Controlled blind clinical trial Dr. Elena Cascales. University of Murcia
16:15-16:30 h	Biofilm growth and dispersal on exposed dental implant surface Dr. Berta Cortés Acha. University of Barcelona
16:30-16:45 h	Functional efficiency of patients treated with complete implant-supported prosthesis compared to a complete conventional prosthesis Dr. Carlos Larrucea and Dr. O. Carrasco. University of Talca, Chile.
16:45 h	Closing

08:00-14:00 h	Documentation hand-out
08:55 h	Introduction to the programme
09:00-10:15 h	Dental flow at the lab: ¿optional or compulsory? Mr. Carlos Plata Vega and Mr. Javier Rubio
10:15-11:00 h	From the immediate loading to the final restoration Mr. Javier Ortolá Dinnbier
11:00-11:30 h	Coffee break
11:30-12:15 h	Ticare contribution to a premium quality dental restoration Ticare
12:15-13:00 h	Stress on implant-supported structures. ¿Cast or milled? Dr. Pablo Domínguez Cardoso
13:00-13:45 h	Protocols for aesthetic restorations on implants. Communication between the clinic and the lab Mr. Carlos Gracia Ruiz
13:45-14:45 h	Lunch
14:45-15:30 h	Main Auditorium. DEBATE on Marketing and Dentistry
15:30-16:15 h	Technical aspects for dental rehabilitation in digital implantology Mr. Iñigo García González
16:15-17:00 h	Can you give my smile back? Clinic-lab-patient protocol Dr. Alfonso Díez Carrión
17:00-17:45 h	Importance of the Introduction of new ICT CAD-CAM technologies, additive manufacturing in dentistry, and training needs Mr. Fernando Folguera
17:45 h	Closing

Dental hygienists programme

DENTAL HYGIENISTS PROGRAMME

Friday 16th February . "Paris" Room. 1st Floor

15:30-19:00 h	Documentation hand-out
18:10 h	Introduction of the programme
18:15-18:55 h	Medical emergencies in the clinic Dr. Daniel Robles Cantero
18:55-19:35 h	Key factors in prevention and treatment of the peri implant pathology Dr. Antonio J. Flichy Fernández
19:35-20:10 h	Implant surgery: key role of a dental hygienist Dr. Carlos Sáenz Ramírez

DENTAL HYGIENISTS PROGRAMME

Saturday 17th February. "Paris" Room. 1st Floor

09:30-10:10 h	Occlusion and implants as key factors in the implant preservation Dr. M ^a del Carmen Ramos Martínez
10:10-10:50 h	Maintenance and control of the periodontal disease, previous to the gingival surgery Dr. Vicente Belvis Quiles
10:50-11:30 h	Genetic: How to explain to the patient the importance of the implant-abutment connection Ticare
11:30-12:00 h	Coffee break
12:00-12:40 h	Update on implants in periodontal patients with diabetes Dr. Jerónimo Rubio Roldán
12:40-13:20 h	Periodontal protocol in implantology Dr. Luis Téllez Bermejo
13:20-14:00 h	Maintenance and implant-prosthesis solutions for edentulous patients Dr. Patricia Pizarro Luengo
14:00 h	Closing

Alveolar ridge preservation

Alveolar ridge preservation

Friday 16th February . "Berlín" Room. 1st Floor

15:30 h	Presentation of the course
15:30-16:00 h	Biology of the post extraction alveolar ridge. Time and factors to be considered Dr. Alberto Fernández Ayora
16:00-16:30 h	Alveolar ridge preservation: Concept, techniques and clinical cases Dr. Alberto Fernández Ayora
16:30-17:15 h	Immediate implant: Concept, techniques and clinical cases Dr. Alberto González García
17:15-17:45 h	Immediate loading: Concept, techniques and clinical cases Dr. Alberto González García
17:45-18:15 h	Coffee break
18:15-18:45 h	Hands-on: Alveolar ridge preservation Dr. Alberto Fernández Ayora and Dr. Alberto González García
18:45-20:00 h	Hands-on: post extraction immediate implant Dr. Alberto González García and Dr. Alberto Fernández Ayora
20:00 h	Closing

Dental Marketing Course

Dental Marketing Course

Saturday 17th February. "Paris" Room. 1st Floor

09:25 h	Presentation of the course
09:30-10:10 h	Resistance to change Dr. Raúl Pascual Campanario
10:10-10:50 h	Golden rules to be considered on the first examination Dr. Raúl Pascual Campanario
10:50-11:30 h	Strategies for optimazing accounts receivable Dr. Raúl Pascual Campanario
11:30-12:00 h	Coffee break
12:00-12:40 h	Actual situation of the Dental sector in Spain Dr. Alberto Manzano
12:40-13:20 h	Where Dental clinics must head for? Dr. Alberto Manzano
13:20-14:00 h	Neuromarketing as partner to walk this way Dr. Alberto Manzano
14:00 h	Closing
